

**Creston Dempsey**  
"Creston"

**E & H Product Strategy Leader**  
**GE Power & Water**  
**Atlanta, GA**

Creston Dempsey is a graduate of Clemson University with a B.S. in Mechanical Engineering. He began his career at Kubota Tractor Company in 2005 as a Research and Development Engineer working primarily on product testing and development for the lawn and garden line in Gainesville, Georgia.

In 2007 Creston took a role with GE Energy in Greenville, South Carolina with design engineering as a Rotor Structure Engineer for the FA compressor module. Creston also worked on the 7FA.05 rotor mid-section and the HA turbine dovetail design and rotor assembly NPI design projects before moving to services engineering in 2010. In services engineering Creston supported heavy duty gas turbine rotating hardware in the field and repair shops.

In 2014 Creston moved to Atlanta, Georgia to his current role focusing on gas turbine plant related availability improvements for the B, E, & H fleets.

Creston enjoys hiking and running in his spare time and has completed the Georgia section of the AT (Appalachian Trail), Foothills Trail, and hiked up the peak of Half Dome. The Smoky Mountains and Virginia section of the AT are next on the list.
